

WHEATFEED

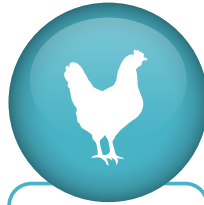

**NOBLE
FOODS**
MILLING | STRAIGHTS

Suitable For:

PIGS

POULTRY

RUMINANT

Typical Analysis

These results are indicative, not fixed and contractual.

Dry Matter	Crude Protein	Oil A	Oil B	Crude Fibre	NDF	Lysine	Starch	Sugar	Ash
87	16.0	3.7	4.5	8.5	34	0.6	22.3	5.7	4.7

Figures are shown as %.

Additional Information

Home-produced (HP) wheatfeed is available as pellets or meal, as required. Produced as a co-product from flour milling and made up of the bran and endosperm fractions of wheat, wheatfeed is a good source of energy and digestible fibre for pigs, poultry and ruminant animals.

Quality Assurance

Wheatfeed is sourced solely from approved suppliers and is sold by Noble Foods, Straights, a UFAS accredited merchant. This product is used internally, within our own feed mills. A full QC of our internal, Noble analytical information is available on request.
